INTERNSHIP

Web Developer Intern | MindstormSoft

July 2025 – Present

- Developed responsive and user-friendly web pages using **HTML5, CSS3, JavaScript, and Tailwind CSS**
- Built frontend components using **React.js** and **basic Next.js**
- Integrated **REST APIs** for dynamic data handling and application functionality
- Used **GitHub** for version control, code collaboration, and project management
- Designed and converted **Figma UI designs** into functional web pages
- Assisted in backend development using **PHP and MySQL**
- Collaborated with team members to develop, test, and debug real-time web applications.

PROJECTS

MedCare – Healthcare Chatbot for Rural Emergency Support

- Built an intelligent chatbot that provides 24/7 medical assistance for rural populations.
- Implemented symptom analysis using NLP and machine learning to deliver emergency response guidance and suggest nearby healthcare facilities.
- Improved healthcare accessibility and emergency response time in remote areas with limited infrastructure.
- GitHub Repo - https://github.com/bhoomikadobariya-45/Medcare.git

Aone International - Industrial Machinery Manufacturer (Live)

- Developed a responsive corporate website using React.js and Tailwind CSS for an industrial machinery company.
- Built reusable React components and modern UI layouts to improve performance and scalability.
- Implemented SEO-friendly structure and contact inquiry forms, and deployed the project as a live production website.
- GitHub Repo- https://github.com/MindstormSoft/A1-international.git
- Live URL - https://aoneinternational.co.in/

DealHub – One-Page Online Business Website (Live)

- Designed and developed a responsive one-page
- business website to promote online deals, services, and offers effectively.
- Implemented smooth scrolling navigation, structured sections (Hero, Services, Deals, Contact), and a clean UI for better user engagement.
- Built using HTML, CSS, and JavaScript with a focus on performance, mobile responsiveness, and modern web design principles.

MindstormSoft – Practice Web Development Project

- Developed practice-based web pages using React.js and Tailwind CSS following modern frontend standards
- Converted Figma UI designs into functional, responsive React components.
- Used GitHub for version control and followed component-based development practices.
- GitHub Repo - https://github.com/bhoomikadobariya-45/MindStormSoft.git
